When was the ice cream sandwich
first created and sold?
A. 1899
B. 1939
C. 1959

Turn Card over for sweet treat answers!

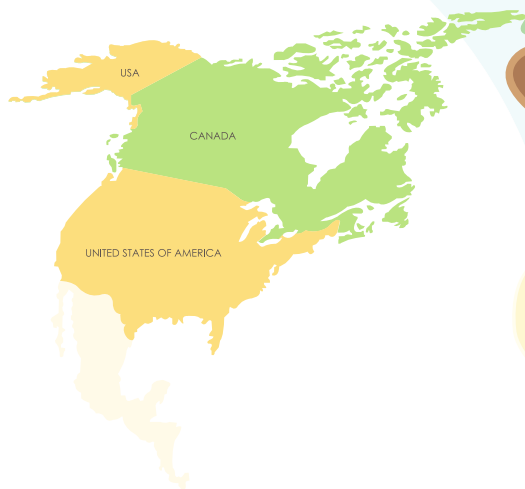

Sweet treat answers!

A. It takes **12 pounds** of milk to make one gallon of ice cream. That's one busy cow!

B. Vanilla always seems to rise to the top. Some of the **weirdest flavors** of ice cream manufactured include avocado, garlic, jalapeno, and dill pickle (which was marketed to pregnant women).

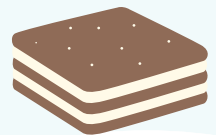

B. The first ice cream parlor in the United States opened in **1776** in New York City. Maybe that town should be called the Big Cone instead of the Big Apple.

B. The average American eats **48 pints** of ice cream per year. The residents of Portland, Oregon, eat more ice cream than any other U.S. city.

C. According to the book *Sugar and Snow: A History of Ice Cream Making*, the ice cream sandwich was created in **1899** by an unknown New York City pushcart peddler, who offered the portable snack as vanilla ice cream pressed between two graham wafers. It sold for a penny!
